11/3/2015 BIGBANK Group

BIGBANK Group

BIGBANK AS was established in 1992 in Tartu, Estonia. It specialises in term deposits and consumer loans and now operates in Estonia, Latvia, Lithuania, Finland, Spain and Sweden, while providing cross-border services on the German, Austrian and Dutch markets. The company operates under the trademark BIGBANK on all markets.

BIGBANK strategy is to continue its operations in existing area of activity by focussing on the existing client segment and always offering best possible services while always considering customer needs. BIGBANK does not intend to start competing with universal banks in the area of traditional banking services.

Being a specialist bank means that BIGBANK has the resources to get to know its clients better and address their needs more personally. This allows BIGBANK to be quicker and more flexible than universal banks without compromising the quality of issued loans. BIGBANK applies the same principles as universal banks in assessing the solvency of clients and performs a credit analysis every time before issuing a loan.

BIGBANK's operations are supervised by the Financial Supervision Authority (Sakala 4, 15030 Tallinn, Estonia; ph: +372 6680 500; www.fi.ee).
